PROFILE

Results-driven professional with a background in interior design, currently transitioning to a career in software engineering. Bringing a foundation in creative problem-solving, thorough attention to detail, and a strong eye for design aesthetics, I am dedicated to mastering programming languages and full-stack development. Excited to contribute a unique perspective, a passion for innovation, and a collaborative mindset to software engineering.

SKILLS

HTML, CSS, JavaScript, ReactJS, NodeJS, Express, NextJS, MySQL, Agile Development, Document Object Model (DOM), Jira, Git, Microsoft Office, Revit, AutoCAD

EDUCATION

BrainStation | Diploma, Software Engineering

DEC 2023 - MAR 2024, TORONTO, ON

FAAP Fundacao Armando Alvares Penteado | Bachelors in Architecture & Urbanism

JAN 2007 - 2012, SAO PAULO, SP - BRAZIL

PROJECTS

BrainStation | BrainStation

MAR 2024

- Full-stack application developed to help users efficiently manage their finances by categorizing and tracking expenses.
- HTML, CSS, JavaScript, React, Node, Express and mySQL were used during the development process.

EXPERIENCE

Interior Designer | Grant Design Group

AUG 2021 - DEC 2023, WINNIPEG, MB/REMOTE

- Participated in weekly meetings with Architects, Engineers and clients to discuss the project and establish task priorities.
- Performed presentation of projects using 3D models, and technical drawings for clients and the construction team to ensure agreement between the two parties.

Field Auditor | Pizza Hotline

AUG 2020 - 2021, WINNIPEG, MB

- Progressed from a store staff member to manager and ultimately to a field auditor, showcasing adaptability, leadership, and a results-driven approach.
- Led comprehensive operational audits, ensuring rigorous quality assurance practices across all Pizza Hotline stores while playing a pivotal role in owner onboarding by delivering comprehensive training programs, contributing to enhanced team efficiency.
- Effectively managed cost and profit analysis, optimizing store performance and aligning operations with company standards.

Architect | Freelancer

DEC 2017 - 2019, SAO PAULO, SP - BRAZIL

- Met with clients in person to discuss changes in projects based on clients' wishes to improve the project.
- Created architectural drawings from sketches daily to meet customers' needs and for the construction team to follow as a guide for construction projects.
